I N T R O D U C T I O N

This volume comprises the three indexes to the official statements and reports of the World Council of Churches, for the periods 1948-1967, 1968-1977 and 1978-1994.

The latter document has just been completed by the staff of the WCC Library, with the welcome assistance of its former director, the Rev. Ans J. van der Bent. It includes 40 reports and contains 533 keywords for access to the very rich documentary sources of the WCC.

Anyone familiar with WCC literature will know how difficult it is to find one's way through the many documents published every year. We make no claim that the new index is perfect, but we hope it will render the same useful service as its two predecessors, inasmuch as it is the only tool of its kind in printed form.

It was originally planned to integrate the three indexes and publish them as one. But as work progressed, we realized that the periods covered represent very different stages in the history of the World Council of Churches -- and this will be easily seen by comparing the three lists of keywords. We hope that, by presenting the indexes separately, the user will be able to make a preliminary choice according to a specific period of time, and will not be overwhelmed by too much information.

The latest index, which appears first, lists the reports in alphabetical order, with the call number in the WCC Library. The two previous indexes follow. We sincerely hope that this reference volume will assist friends of the WCC in their research on ecumenical matters.

This volume comprises the three indexes to the official statements and reports of the World Council of Churches, for the periods 1948-1967, 1968-1977 and 1978-1994. They appear separately, as the keywords differ considerably over the years covered.

Each section begins with a list of the reports indexed, giving full bibliographical details. The latest index also includes the call number in the WCC Library.
